

BOHEMIAN GROVE NOW HIRING FOR SUMMER SEASON
FOR AGES 15 AND UP

THE BOHEMIAN GROVE

The Grove is a place like no other. With 2700 private acres of towering redwood forest nestled in Sonoma County's Russian River wine country it's an amazing work environment. For over 100 years our members and their guests have ventured to the Grove each summer for two events, Spring Jinks and Encampment, to enjoy and participate in performances, concerts, lectures, nature walks and fine dining.

It's not for everyone. During the summer events we are constantly doing whatever it takes to provide world class service to our members and guests. We are aiming for perfection. You should be hardworking, gracious, collaborative, flexible, and love the outdoors. People come from all over the country and the globe to come work for us. 90% of our hires come by word of mouth referrals.

"Fun and exciting work environment" Great drive to work. Safe community. You get to meet new people from different backgrounds. Everyone works together. Very supportive and understanding.

"Great place to work in the summer during college" ... work out in the redwood forest and get to meet people from all over the country/world.

"Highly Professional and fast paced" Guest relations was the single most emphasized aspect of the job

"Enjoyable environment and fast paced setting" I loved working at the Bohemian Club because it was a great environment with great coworkers and I learned a lot about serving.
